

ASSEMBLY BILL

No. 490

Introduced by Assembly Member Smyth

February 24, 2009

An act to amend Sections 122350 and 122354 of the Health and Safety Code, relating to pet stores.

LEGISLATIVE COUNSEL'S DIGEST

AB 490, as introduced, Smyth. Pet stores.

Existing law establishes the Pet Store Animal Care Act, which regulates the care and maintenance of animals in the custody of a pet store, and provides limits on the sale or transfer of those animals. A violation of the act is punishable by a misdemeanor. The act defines a pet store as any retail establishment open to the public and selling or offering for sale animals.

This bill would revise the definition of a pet store to exclude the selling or offering for sale animals for purposes directly related to an agricultural operation for the commercial growing and harvesting of crops or the raising of livestock or poultry on a farm or a ranch.

Under the act, an employee of a pet store may only destroy an animal intended as food for another animal in accordance with a prescribed methodology, provided the employee receives adequate training, as described. The act requires the completion of the employee's training to be documented in writing and retained by the pet store for 2 years.

This bill would, instead, provide that a rodent or rabbit that is intended as food for another animal may be destroyed by a pet store operator or employee only in accordance with specified conditions, and only if the pet store operator or employee is certified, in writing, by a California-licensed veterinarian, as provided. The certification would

be valid for no longer than 3 years, and could be renewed for additional 3-year periods. The pet store operator would be required to retain the certification for 3 years, unless a longer period is otherwise required by law.

By changing the definition of a crime, this bill would create a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:
